Collaboration with ARSG.docx

Steve, I'd be happy to talk. Attached is a compilation of ARSG meeting summaries and my notes that document our discussions related to the Red and Bonita and Gold King Mines with ARSG. I have looked for a PowerPoint in my files but haven't been able to find one.

Did you have any power point from the last year on Gold King?

A few other items we discussed in the call:

Meeting summaries at which the ARSG requested EPA's involvement. Whether Steve Way used a PowerPoint last year in advance of beginning the work to describe the work. If so can a copy of that be found.

Thanks all for organizing the events. I got a lot of it.

Here's what I have as followup items:

History of use/closure of each of the mines

1st day press release

Q and A on change of spill estimate

Do we have a q and a on why no satellite phone at work site?

Hi Mathy,

It was nice to see you yesterday – and hope you found your visit productive.

David Ostrander and I are following up on the items you mentioned on the ride from the mine to the airport and are planning to send you a package tomorrow.

One of the things you raised was about historical mine issues – and we wanted to clarify what you are looking for, so if you could clarify for us that would be great.

Also, if you think of other things you would find useful as you prepare for Wednesday, please let us know and we are happy to assist.

Thanks
